Voters turn out in record number

Hondo voters turned out in record numbers Saturday to cast ballots in city and school elections and re-elect three incumbents and two new-comers.

A total of 1857 voters spoke in the school election while some 1770 voted in the city election.

City voters returned Hilmer Mueller to Place 4 on

the Council and G. E. Pete Pedroza to Place 5. They also elected Richard "Bud" Gwartney to Place 3.

In the school voting Henry Dominguez received 1487

votes to win in Place 1, while incumbent Glen McWilliams received 1275 to win re-election to Place 2.

The slate of candidates entered by the Citizens for Better Government presented stiff competition in most races. Tom E. Santos opposed Bud Gwartney for Place 3 and received 760 votes. In Place 4 Jesus Rodriguez opposed Pete Pedroza and received 879 votes.

In the school election Johnnie Morales opposed McWilliams and received 589 votes.

Boy Scout meeting planned

There will be a special meeting at 7 p.m. today (Thursday) at K&B Drive In to organize the annual Boy Scout Finance Drive.

E. F. Duderstadt, Hill County District executive director, will be the main speaker.

Expected to attend the meeting are Chairman Bob McGarity, Campaign Captain Tony Mendoza, Treasurer W. T. Crow, Richard Adams, Arlen Graff, Jim Fiddle, Alvin Lange, Fred Bader, Milton Renken, Johnny Joe Mendoza, Darwin Schrader, Harold Herring, A. F. McGuffin, John Kalinowski and Sam Moss.

Other persons who wish to volunteer to help on the Boy Scout finance drive are invited to attend the meeting.

James Bohls elected coach

James Bohls, assistant coach at Hondo High School for the past six years, has been elected to the head football coaching position.

The action came Monday night at the Hondo Independent School District Board of Trustee meeting.

Born in Austin, Bohls lived in Pflugerville and attended Pflugerville schools grades from one through 12. He played football three years and never lost a high school game; and he played on three Regional Champ teams.

When he graduated from Pflugerville, the football team had a string of 45 consecutive games won. The next year the string was extended to 55 games before they were beaten in Bi-Dis-

trict. Coach Bohls played basketball four years on two District Champ teams; he ran track for four years and was high point man in district track meet his senior year; and played baseball two years.

Attending Texas Lutheran College in Seguin, Bohls lettered in football four years and in baseball three years.

He came to Hondo from TLC and has served since 1966 as assistant football and head baseball coach.

Coach Bohls and his wife, the former Barbara Magnuson of Elgin, met at TLC and were married on June 10, 1967. They have one son, Stephen, who is one year and three months old.

THE ELECTIONS

... are over and now it behooves all of us, including the City Council and the School Board, to work hard for any and all projects that will help improve the lot of any group or the city and school as a whole.

One step in this direction will be the Housing Authority Mayor George Brucks has said he will appoint Tuesday night (April 11). Once appointed that Authority can begin work immediately on planning and obtaining some low-rent housing as well as working toward some type of rehabilitation program.

The school is moving in the right direction in several areas. One of these is the UIL Literary contests in which some students are participating this week and next. State UIL winners stand to share in many scholarships available only through this program.

Another area of progress in the school is the planned vocational educational classes which will be set up in the old Lacy Gym this coming fall. Such classes have been needed for a long time and will be welcomed with open arms.

Also, with the completion of the new wing at the high school, an advanced typing class will be expanded, thus providing added training and learning for more students.

The end of the 1972 elections should not, and I believe will not, bring about an end to efforts to improve our city and our schools. The City Council and the School Board should leave no stone unturned in their attempts to alleviate as many problems as possible within a reasonable budget. However the budget should never be used as an excuse to escape responsibilities.

One project the City Council could well look into would be recreational areas within the city. The school has much open property. What would be wrong with the City installing playground equipment on some of this property so that it could benefit students and townspeople alike?

Many persons ask why our school does not have a girls' basketball team to compete

Final two phases of Industrial Week set

Two final phases of Texas Industrial Week take place today (Thursday).

The Industrial Exhibit, located in the Bluebonnet Cleaners, will be open 9 a.m. to 9 p.m. today (Thursday) and from 9 a.m. to 6 p.m. Friday and Saturday.

Second big happening today (Thursday) is the Open House being staged by the Randolph GCA site. Everyone is invited and transportation will be provided from the Gary Aircraft south gate across the runways. Personnel also hope to have a T-37 jet trainer on display.

Two assemblies at high school and McDowell went very smoothly and speakers and essay contest winners are pictured and listed elsewhere.

County reports new cases

Five screwworm cases have been confirmed in Medina County as of April 3, 1972. The five cases range from the northwestern part of the county on the Calvin Bendele Ranch to southern and eastern parts of the county.

Additional cases were confirmed on the Alvin Wiemers Ranch, four miles southeast of Hondo; Marcus A. Dubose, four miles west of Devine; Cecil Tindall, ten miles west of Yancey, and Harold Tripp, Sr. seven miles north of Castroville.

Producers in Medina County need to take precautions to prevent a screwworm outbreak by treating all wounds and by sending worm samples to screwworm Eradication Officials at Mission, says Glenn Bragg, County agricultural agent.

"This is an extremely large number of screwworm cases in Medina County for this time of year and 1972

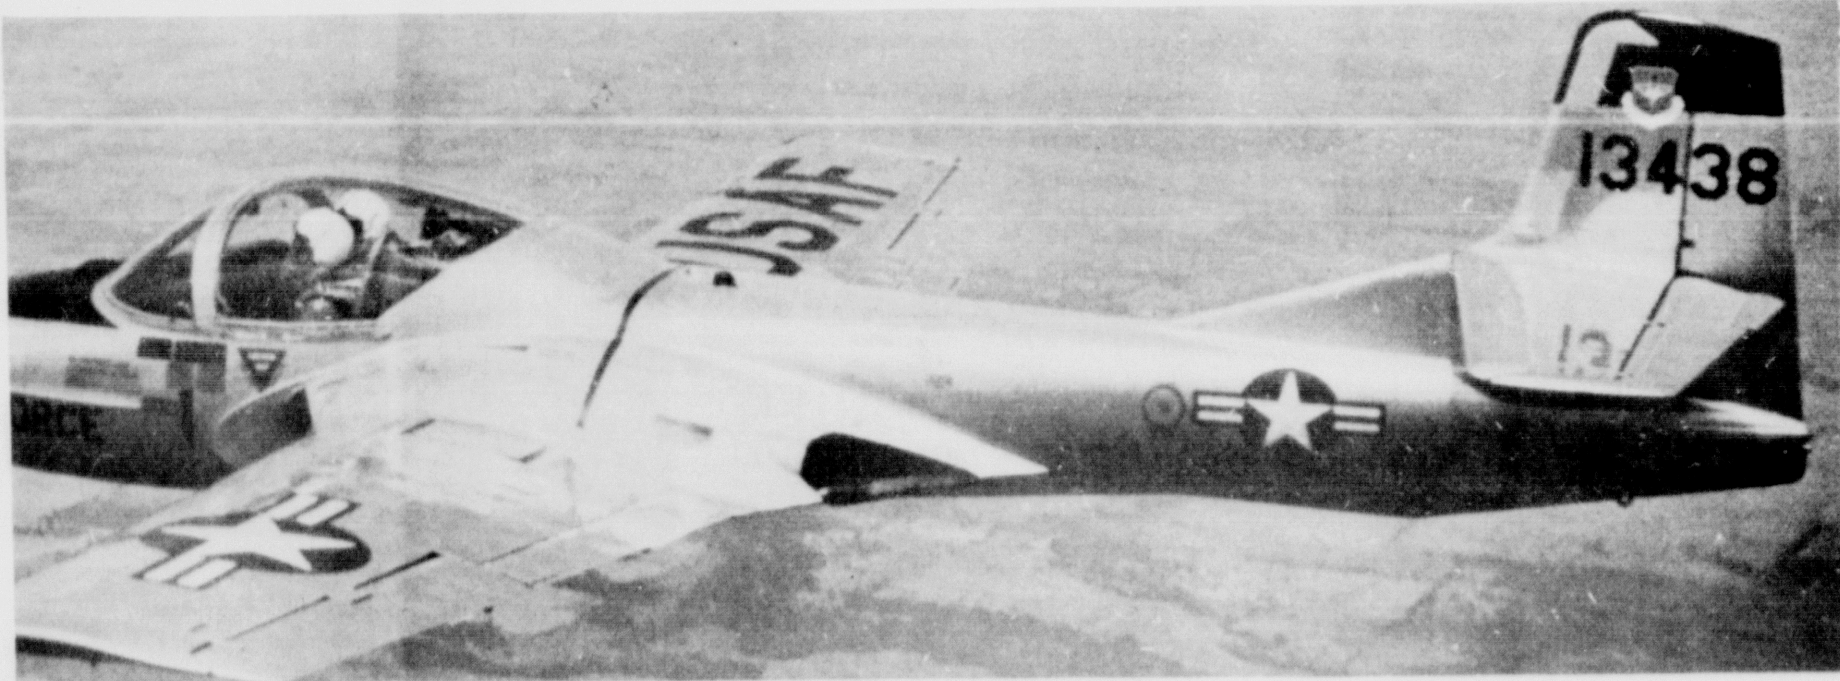

Don't forget

IMPORTANT MEETINGS

Monday--Commissioners Court--Museum Board Tuesday--City Council--Wednesday--Working Ladies meet at Grant's

could be a rough year if outbreaks are not checked," said Bragg.

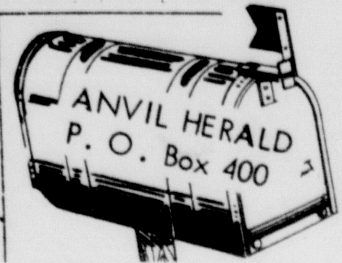

Medina County is as far north as screwworms have been reported.

To be on display

This T-37 jet trainer will be on display (weather permitting) for the public to see all day today (Thursday) at the Hondo Airbase. The Randolph GCA (Ground Control Approach) site is holding Open House in honor of Texas Industrial Week. Site personnel headed by MSgt David Knight will provide shuttle buses to get across the runways. These rides will be at the Gary Aircraft south gate. Other site personnel include: TSgt Robert Pike, TSgt John Yezierski, TSgt William Edington, TSgt John

Kilpatrick, SSgt Donald Davis, Sgt. Lewis Harding, Sgt. Rodney Rex, Sgt. Greg Austin and Sgt. William Taylor. They all say: "Come on out to our Open House."

Santos analyzes voter turnout

Dear Editor:

An average majority of 1032 voters decided to again have an Anglo based governing group. The purpose of this article is to examine the underlying significance of the outcome of this year's election of city officials. These factors must be examined and respected for what they stand and must not be taken lightly lest we lose sight of democracy's heritage. Another purpose for this article is to expose a vicious prejudice streak that runs through Hondo that does not need group discussion or pep rallies to activate it for it runs inherent within the people who live it.

It was calculated by the Hondo Citizens for Better Government that 934 Mexican-Americans entered the doors of the municipal building for the purpose of voting and it is being assumed that all these people did in effect vote. It was also calculated by the CBG that 902 Anglos entered these same doors for the same purpose and it is also being assumed here that approximately 100 of these were turned away as being ineligible to vote. By mathematically juggling the figures and adding the absentee votes we come out with a close proximity of the votes that were cast in this election.

Of the 934 Mexican-Americans voting in this election an average of 728 Chicanos endorsed the CBG candidates leaving a Mexican-American splinter minority of 206 switching to vote Anglo. It is also calculated the Anglos, with extremely few exceptions, en masse endorsed the Anglo candidates. Adding the 206 splinters to the cal-

culated 826 valid Anglo votes yields a majority result of approximately 1032. Note here that if the Anglo had voted Anglo as they did and the Mexican-American had voted Chicano, that is switch the 206 swing votes from the 826 Anglo to the 728 Chicano votes, the CBG would have won by an average margin of 108 votes. This hypothesis is obviously idealistic and "Raza Unida" inclined but let me make a startling observation here... the Anglo clearly demonstrates that it is a "raza unida" in the ballot box.

The Anglo "raza unida" philosophy is clearly demonstrated in the wholesale endorsement of a candidate who is unknown to the public and to the voter but whose major qualification was that he is Anglo. By this virtue alone he sweeps an election from one who is known to champion the cause of the underprivileged and the Mexican-American, from a man whose platform is clearly stated and understood only too well by all.

This writer is not bitter at losing an opportunity to have a chair in the Hondo City Council. The voting bloc that defeated the CBG is but a minority who does not desire representation of its people and who also believes that the Chicano candidates are incapable and unqualified to represent. This writer is thrilled and obliged to represent the 728 Chicanos who said "You guys are on the right track... keep it up... we are with you." We will try not to let them down.

It should be noted that of the total registered Anglo approximately 64% turned out to vote while approximately 83% Mexican-Americans voted. Another way to look at it too is that of the registered Chicano voter the CBG got a 64% endorsement from its people while the Anglos only got a 58% endorsement from its registered ranks.

Tom E. Santos

Dear Burns:

I enjoyed very much visiting with you regarding my campaign for re-election. Things seem to be going great with those who know anything about the race. The State

Bar Association conducts a secret poll of lawyers regarding appellate judges' races, and I was very pleased to receive 1,009 votes to 49 for my opponent. I am going to try to convey these results to the voters in my advertisements, and I hope it will make a difference at least with the average voter.

Sincerely yours,
Charles W. Barrow

Dear Mr. Lawrence,
In addressing this letter to you, I am also addressing it to the citizens of Hondo regarding a letter sent to you by a Maria L. Lopez.

Many people have come to me asking about this letter in question and I want it known that I did not write such said letter. Being in business, I feel it is best not to get politically involved and therefore I stay neutral when it comes to politics.

So again, I say, I did not have anything to do with said letter.

Respectfully,

Dear Mr. Lawrence:

Please accept our sincere thanks for the publicity you gave us in the Hondo Anvil Herald for the announcement of the presentation of Handel's Easter Messiah.

Speaking for all who took part in the performance--the chorus, the soloists, the organist and myself, all of us appreciate your help in this matter.

Very Sincerely,
Mrs. Eileen Brucks

"I was darned lucky to get my attack on the day I was eligible for retirement."

Gentlemen:

I am attempting as a labor of love to determine the path of a very bright meteor or "fireball" widely seen over Texas the night of Wednesday, March 22, near 10:50 p.m.

Observations so far obtained from north and central Texas indicate it was going almost due south towards Uvalde and perhaps ended within 50 miles of there.

But I need to determine the end point more accurately, and observations from Hondo or anywhere around there would help. Could you publish a brief request of any witnesses of this event to write me?

I need to know from each observer especially the answer to the question: "In what direction from you was the fireball when it went out?"

My ultimate purpose is to determine whether there is any possibility of meteorites falling but first we have to find out where the object ended. Thanks,

Yours Sincerely,

Poerner Report

The Texas House of Representatives elected Representative Rayford Price of Palestine as the Speaker for the duration of the 62nd session. Speaker Price is a conservative whom I have appreciated and respected since I came to the legislature in March, 1969.

I was supporting Representative DeWitt Hale of Corpus Christi on both ballots because I felt a South Texas legislator would be more closely aligned with my district. Representative Hale, in my opinion, would have made a fine Speaker and as I said to many people before the balloting, "I will be very happy with either candidate."

Now that the House is re-organized, I am sure everyone will cooperate with Speaker Price. I have pledged my support to help him in any way that I can.

Why Hondo needs industry

By Alice Geuea
First

I think that Hondo, Texas, would benefit greatly from the arrival of new industry for several reasons. The most obvious reason is the number of jobs it would provide. These job opportunities would aid people who are willing to work, but cannot find employment. One can easily see how it would also increase the availability of construction jobs since factories, offices, and new houses would be necessary to accommodate industry and workers' families. All these things are easily noticed.

Hondo's income would also be affected by new industry. With the increase of population the economy would also be increased. Taxes would be boosted and the school would benefit. Items manufactured in Hondo would be sold cheaper in Hondo because of the absence of shipping charges and taxes.

Many people object to industry in Hondo because of ecological aspects. Although pollution is a major problem today, I believe that we can control it and still benefit from industry. With careful

planning and consideration I think that we can persuade new industry to begin branches here.

By Lupe Barrientes
Second

Industry is the master key to Hondo's progressive future and the unity of its people. According to The Consolidated Webster Dictionary of the English Language, industry is defined as "any productive occupation, especially one in which numbers of people are employed." Yes, Hondo does need more industry because it is growing very rapidly every day. More industry would open more opportunities for the people living in it. These golden opportunities opened by industry would help better the lives of the people in our community. Industry would bring new jobs to our people. A whole new challenge would be facing our people. A chance to do instead of having someone to do for you. More unity with the people of Hondo would be found. The variety of new jobs would be plenty for all people and all our people could probably reach the qual-

ifications. This way no person could say, I did not get the job because I did not reach the qualifications. Yes, our people would be working together and sharing their ideas. Industry would help make Hondo a united town rather than a divided town. The people would look up to each other with pride and respect and say, brother you and I put that together for the good of all people. Industry would bring more progress in our town's future. More people from the surrounding areas would come buy from our industries. More trade with towns which are at a distance would be established. Hondo would be recognized as a town of industry, as a united town, and not only as a successful town but as a progressive town. Friends, this town is your town, this town is my town, therefore let us work toward unity and progress. Let us make Hondo a better town to live in, let us work toward industry. Our future is now therefore let us make industry the key to open our doors to our future.

Social Security Questions & Answers

QUESTION: How can I get complete information on the protection which social security provides for children and young working people?

ANSWER: Telephone your social security office and ask for a free copy of the booklet called "Social Security Information for Young Families." It contains some of the most vital information you will ever find concerning the financial security of you and your family. If you have specific questions, representatives at your social security office will be glad to answer them for you - by phone, or in person if you wish.

Kazen in Washington

By U.S. Rep. Chick Kazen

Please allow me to share a letter which I sent last week to an important official of a chain of retail food stores in Washington:

Mrs. Esther Peterson, Consumer Advisor to the President of Giant Food:
Dear Mrs. Peterson:

Earlier this week, a Washington newspaper carried a full page advertisement with a large picture of you and a two-inch signature on a message addressed to Washington food shoppers. In big, black type, the headline read, "You have the right to be informed about meat prices."

And, the first paragraph of the advertisement said, "Meat prices are high and from all predictions will remain high. Beef is near the highest level since the end of the Korean war. Why are they so high? It begins at the source: Livestock prices were not and are not now controlled under the present economic programs. Less meat is reaching the market. Prices from our suppliers have skyrocketed. Because of all these reasons, you will find higher prices on almost all fresh meats."

As you know, Mrs. Peterson, your company's advertisement then went on to urge, "Buy less meat... Buy something else."

Mrs. Peterson, when you were consumer advisor to President Johnson, you provided important contributions to consumer education. In previous advertisements, your present employers suggested you were to perform a similar function for Giant Food. Recognizing consumer interests, I want to be helpful when I suggest that your printed statement did not cover "all these reasons," and to reject the idea that ranchers are gouging meat buyers.

Economists in the Department of Agriculture, as you know, keep careful records on prices paid to meat producers and compare these to prices paid to consumers. The difference, or "spread," measures the ranchers' price compared to the retail price.

For choice beef, the rancher received 46 cents a pound in 1961 and the retailer 76 cents. In 1965, the rancher received 51 cents and the retailer 80 cents. In 1970, the rancher price was 61 cents and the retail price 98 cents. In 1972, the rancher was paid 63 cents and the retailer \$1.02. These figures show that the spread has increased, which means the rancher has received a smaller share of the consumers' dollar. I cannot see that ranchers should bear the blame for higher costs at the supermarket checkout counter.

You seem to have missed two points. First, there have been more significant increases in labor costs for packers, shippers and retail clerks; packaging costs have risen, and even your stores' taxes, rent, banking and other services cost more.

Second, the rancher has had higher costs, too, for labor, feed, taxes, breeding stock, equipment and petroleum products used in his operations. In many areas, last year's drought forced ranchers to sell their foundation herds. Many were forced out of business. If those still operating cannot get a fair return on their labor and investment, they will give up ranching. Who then will produce this important element of our food supply?

Because the planners of price controls recognized that the ranchers and farmers were overdue for economic help, they did not place controls on agricultural products. If controls are needed, I believe that the profits of processors, wholesalers and retailers should be examined.

I respectfully suggest that proposals such as yours, urging consumers to buy less meat, set class against class, city people against farmers. I remind you that rural people are consumers, too. I have worked hard for better urban-rural understanding. Understanding, Mrs. Peterson, like equity in the market place, is a reasonable goal. It is in that spirit that I write to you.

Sincerely,
Abraham Kazen Jr.

with other District 28-AA schools. This is a good question and one well worth looking into. Maybe there are good reasons why we don't; but these reasons should be presented to the public so it can be better informed. I understand we are working toward tennis and golf teams. That's fine. And it's too bad that high costs prevent some type of bowling activity being provided for students.

There are areas in the city that need additional lighting, additional or new paving. These should receive high priority. Paving has to be partially paid for by land owners, but other cities have initiated plans that allow home owners to pay as low as \$2 to \$3 per month on their utility bills, why can't Hondo?

These are but a few things that could be worked toward. I feel sure there are others. And I challenge all City Council members and School Board members to generate ideas for solving other problems. We do have problem areas, so let's not hide our heads in the sand and pretend we don't. Let's all work together to solve them.

Herein lies the secret--all working together. We can never solve our problems and make our city reach its potential unless our people--Anglo and Mexican-Americans if we must put a name to citizens--make every effort to trust each other and work together for the betterment of the whole community.

At one time there was mention of a liaison effort on the part of the City Council to meet with Mexican-Americans, or any other group, in an effort to understand their problems and at the same time get acquainted with each other. Friendship brings on trust and confidence, and people cannot be friends if they insist on keeping to themselves, segregating into special groups, and challenging with suspicion every action of any group outside their own. This was a good idea that fell by the wayside. It should be reviewed.

This is America. And we should all act like Americans. The Anglo is an American. The Mexican-American is American. So why should we act as though we live in two different countries?

Let's melt away the distrust, yes, even the hate. Let's get to know one another. Let's study each other's problems and then pitch in as a whole to help solve them. Certainly, we cannot solve all problems, but with dedicated effort, there is no reason we can't bat above 500. What do you all say we give it a try!

MUSEUM CELEBRATION DAY

. . . for 1972 is just around the first big rain, and now the work really begins. There is much to be done and the Museum Board of Directors will outline it all Monday night (April 10) when they meet at the Medina Electric Co-op building.

Also urged to attend will be representative from all groups who will sponsor booths or concessions at the big day on May 6. Time for the meeting will be 7:30 p.m. and Y'all Come, heah!

Say, have you seen those people around town sporting those pretty blue (Owl blue of course) and white buttons that say "See you MUSEUM Day?" Well, you can have

one for \$1 and get in on publicizing this annual event.

Now, these buttons are a must for all men who are not wearing a mustache. But several of those who boast such growths are also buying the buttons. How about you? We have plenty of them at the Anvil Herald office. And just in case you are wondering, the proceeds go to the Museum.

Some brave souls we might have to persuade to purchase the buttons are these: Baptist Mission Preacher Jose Tenorio, Albert Conde, Fred Breiten, Johnny Guajardo, Isabel Rodriguez, Billy Hemby and Juan Hernandez.

All of these are sporting mustaches--but you will take a button, won't you?

By the way, ladies, the button makes an excellent accessory for any outfit.

FIRE DEPARTMENT

. . . officials expressed grave concern Tuesday night about so many cars gathering at the site of a car fire. "This is a dangerous practice," a spokesman said. The fire was a small one in a car belonging to Antonio Garcia II.

LITTLE LEAGUE

. . . officials have appealed for contributions to the organization. "We have so many boys we have to add two teams this year," one said. "And we need additional funds." He also said that anyone who wishes to be a manager should contact Hilmer Mueller.

Lt. K.D. Hunter in U.S. Air Force

BIG SPRING--Second Lieutenant Kent D.E. Hunter, son of Mr. and Mrs. Darold E. Hunter of Devine, has entered U.S. Air Force pilot training at Webb AFB.

Lieutenant Hunter will fly the newest Air Force jet trainers and receive special academic and military training during the year-long course. He will be awarded silver pilot wings upon completion of the Air Training Command flying program.

A 1966 graduate of Devine High School, the Lieutenant received his B.A. degree in government in 1971 from Texas Technological University where he was commissioned upon completion of the Air Force Reserve Officers Training Corps program.

Lieutenant Hunter's wife, Kathryn, is the daughter of Mr. and Mrs. Howard P. McDonald of Amarillo.

'Tootie' Meyer wins one more

Miss Mary Clara (Tootie) Meyer added another championship trophy to her growing inventory of such honors which she shares with her mount, GOOD NEWS.

Last week she placed first in each class of the San Antonio Shriners Charity Horse Show to qualify for the Division Championship, American Owner Jumper class.

This marked the second year in a row for this award, a silver pitcher and tricolor ribbon.

Her brother, Henry, also took the reserve championship at the Charity Show, Fort Sam Houston, and one first in class awards.

Miss Meyer plans to enter horse shows in Uvalde, Fredericksburg and Fort Sill, Okla., during the year.

Don't buy us because we're number one.

Buy us for the reasons that make us number one.

Anybody can make a truck small. That's not the problem. The secret is building a truck that's just exactly small enough. Big enough to do the job, and then some. Small enough to do it economically. That's what's made the Datsun L11 Hustler America's number one selling small truck. For eleven years, we've been learning about exactly what America wants in a

small truck. And we've been delivering it. The Datsun L11 Hustler has an overhead cam engine powerful enough for highway speeds and back road hauling, small enough for maximum economy. The big six-foot all-steel load bed is just the right size for 9 out of 10 truck owners. The 1,440-pound gross load capacity is perfect for almost everyone's

needs, from recreation to heavy labor. What's more, we back up the L11 Hustler with a nationwide computerized parts distribution system and a factory-trained service staff.

Is it any wonder Datsun is America's number one selling small truck?

Credit Bureaus merge in Devine

The Frio County Retail Merchants Association has been purchased by Mr. and Mrs. George Pletz, owners of the Credit Bureau of Medina County.

Effective April 1, the two bureaus will be merged. Due to a new ruling the name will be changed to Credit Bureau Service Center.

"This will prove most beneficial to all business and Professional people as it will give them a coverage of two counties as close as the telephone," said Evelyn Pletz, manager.

Mrs. Pletz and members of the staff regularly attend Credit Conferences, Seminars and Schools that are offered. The Bureau has received the Certificate of Merit award each year and has had two outstanding awards—one is the Executive Achievement Award and the other is the J. E. R. Chilton Sr. Award, for an outstanding Credit Bureau in Texas.

An Open Letter To The People Of Texas

Dear Voter:

I'm a candidate for attorney general of Texas because I believe it's time for a change in the office.

Crawford Martin is seeking a fourth term. It's the first time in the history of Texas an attorney general is running for a fourth term.

Campaigns should be run on the issues and I don't like to inject personalities and personal relationships into a political campaign. But the relationship between Frank Sharp and Atty. Gen. Crawford Martin cannot be swept under the rug.

The new book about the Texas stock fraud scandal, "Texas Under a Cloud," tells about that relationship. On page 128 the book says: "Atty. Gen. Crawford Martin got some free newspaper publicity when it was revealed in October, 1971, that he received a 'stock tip' from Frank Sharp while Martin and his family were Sharp's ranch guests late in 1969 and again at Sharp's Houston office early in 1970."

Sharp was trying personally to sell National Bankers Life stock to Martin, although the attorney general said that Sharp never mentioned the possibility of Sharp's National Bank loans to buy the stock.

"Martin said that he turned the stock offer down because it would have cost too much, because NBL was in 'shaky' condition, and because he did not buy 'speculative' stocks."

"He did not comment on the ethical aspects of a state official's accepting a stock tip of that sort - perhaps, because Martin, as attorney general, had ruled in favor of Sharp on a key legal issue about Sharptown State Bank only two and one half years before Sharp made the stock offer to Martin."

"Martin's ruling had the effect of increasing the bank's capitalization dramatically and thus its ability to make large loans, ultimately giving Sharp the financial resources he used in the manipulations charged by the SEC."

As you know, hundreds of Texans lost their life savings because of Sharp's stock manipulations and it probably wouldn't have happened but for Atty. Gen. Martin's legal opinion.

Don't you agree, it's time for a change in the office of attorney general of Texas?

Just so you'll know what you'd be changing to, I'd like to tell you a little about John Hill. I'm a native Texan, grew up in Wink and Kilgore, was national debate champion at Kilgore Junior College and graduated from the University of Texas Law School. I served in the Navy during World War II, practiced law (much of the time in courtrooms) in Houston, and was secretary of state from 1968 to 1968.

I certainly would appreciate your support.

It is time for a change.

John Hill

This week

That's all she wrote

by Edna McDade

Line-ups were the order of the day last Saturday as more than 1800 local voters turned out to mark their ballots. I saw one of the 18-year old registrants, ALLEN MUMME, who was proudly exercising his recently granted right of suffrage and I congratulated him on taking his first "unalienable-rights" step.

Allen is the older of MILTON and ZELLA MAE MUMME'S two sons who were still small boys when I moved into the neighborhood. Since both are native-born and have now lived in this country more than the required 14 years, they now have only to wait until they're 35 to be eligible to try for the U.S. Presidency.

Much, much too late for me to help campaign for either one!

While LIZ (Mrs. Lee) MAPLES was vacationing in California, she sent some classified ads to the ANVIL HERALD to show what the west coast folks can do when they put their minds and pens to advertising rhetoric. One such ad read: "I'm selling my drawers, all six of them, in a painted chest for \$25."

The ANVIL HERALD is now in its 85th year of continuous publication. On July 14, 1939, when the late Fletcher Davis was managing editor and publisher, he wrote in his SPARKS column: "This paper completed its 53rd year of publication with last week's issue. For nearly 40 years of that time, it has been under its present management--busy years of struggle and often times of self-denial. Meantime, changes of management among its competitors have taken place; some have flourished for a span and then faded."

"If we were to try to appraise the reasons why this paper has been permitted to serve its public for so long, we would like to think it is because the public recognizes that its management tries to be right rather than popular. When that ceases to be our policy, we shall feel ourselves unworthy to be your editor."

Today, almost 33 years later, this gives us all something to think about.

ROSALIE (Mrs. Ray) JONES and I are back on temporary duty at our old desks in the Herald office, and enjoying our return to the still familiar "chores".

When a piece of copy mentioned helping children with homework, Rosie said it reminded her that she feels like a mother she once knew who admitted honestly, "I can't help my kids because it's too long before I've been in school!"

IRIS (Mrs. Alfred) BADER and her infectious happy philosophy and laughter will be spending a month in Hano, Germany (near Frankfurt) with her daughter and family, Sgt. KENNETH and BETTY ALLEY and their two children.

Iris knows her 3-year old grandson, Alfred Tony, but she had not met 6-months old TINA, his little sister.

Iris told me that her son-in-law delights in sending her mother-in-law jokes. "These I can take," she said, "but I warned him about mentioning a word about FAT mothers-in-law!"

Just before Iris left, her TANDA Camp Fire Girls gave her a surprise bon voyage party, complete with refreshments and gifts of their own making or choosing. "My 11 little girls must be the dearest in the whole Camp Fire organization... but I'd like to hope that every adult counselor feels the same way about her group. I consider it a real privilege to work with mine."

And aren't they the fortunate group to have for their leader "Tante Bader" as they affectionately call her?

The week's mail brought a sales report intended for salesmen to spur them on to bigger sales. A postscript noted: "Spring has sprung/ The grass has risen/ Some is selling/ And some isn't!" Tax time, Man!

My little friend, HAYLEY HARRISON, and her mother, (Edna), wore matching mother-daughter emerald-green dresses to church on Easter.

Hayley's Daddy, Gene, who accompanied them, must have thought his two girls were "the grandest ladies in the Easter parade", even if there was no parade!

Young Farmers to go fishing

Members of the Hondo Chapter Young Farmers are making tentative plans for a fishing trip to the gulf coast the weekend of April 22-23. Originally planned for the weekend of April 8-9, the trip was postponed to the later date due to the unavailability of suitable boats.

Larry Oefinger, YF secretary, is chief coordinator, assisted by Doug Mogford and George Gooding.

The Young Farmers plan to leave here Friday afternoon and set up camp on an island about 28 miles south of Corpus Christi down the Laguna Madre. The two days will be spent fishing in the clear waters around the island. The group will then return to Hondo Sunday evening, hopefully with enough fish for a fish fry at their membership meeting on May 16.

Oefinger requests YF members who are interested in going to contact him at the Coop or see him at the April membership meeting. No special fishing tackle is needed.

MCDOWELL ESSAY WINNERS

...Kay Martin, Pam Pitre, Michelle Ann Pope, Joel Hanneman receive checks from Chamber Director Mayor George Brucks.

Why Hondo needs industry

By Pam Pitre

First

"What Texas makes, makes Texas" is the slogan of a Texas industry. In trying to outline my own reasons why Hondo needs industry, I would like to suggest that "What Hondo makes, can help make Hondo." Hondo needs industry to create new payrolls and improve the economy of this area. Also, many adults feel that if more industry is brought to Hondo, there will be more younger people working instead of "goofing off."

Industry would increase our community payroll and the amount of money in circulation around Hondo. This can help local business by providing people with more money to spend in local stores.

Hondo's established industries have helped Hondo by increasing its annual payroll. According to the Chamber of Commerce, about 1000 people are now employed here. I believe that more industry would provide more jobs for those who must earn a living, both skilled and unskilled laborers.

Hondo needs to make greater use of its land space, which would improve the value of our local and surrounding real estate.

I believe that industry would increase Hondo's population because of the new families which industry would bring in. This would create a need for more housing and help building contractors.

I realize, as a McDowell Junior High student, that the action and decisions to attract industry must be made by adults. However, I also believe that even teenagers should begin now to think about our city's future in order to accept grown-up responsibility.

ber and it is likely to assume that transportation by train for the people of Hondo, at Hondo will return again because of industry.

Better paying jobs brought about by the rise in industry would bring about better housing and hopefully eliminate what poverty there is in the Hondo vicinity.

More industry in Hondo would bring about a rise in the population which would increase the school attendance and create a need for more teachers.

The rise of industry would bring about the need for faster transportation which would call for better roads through Hondo and in time a transportation airport.

The problem of traveling to another city to obtain certain items one needs would be eliminated with the rise of industry and save time and money it takes to make the trip.

With all the rise in population brought about by industry entertainment would then become necessary. Thus, causing the need for parks, playgrounds, swimming pools, etc.

I have faith in Hondo's future. I firmly believe that industry will insure a continued, progressive Hondo.

By Kay Martin

"Hondo needs industry because Hondo is a city. Any city without industry dies." That is what Socrates told me. Socrates is my pet owl.

"Hondo needs industry for its inhabitants. The people in Hondo need food and clothing. They want to know what is going on around the world. People like beautiful things." Socrates is pretty

smart for an owl and he helps me alot.

Socrates continued on, "Industry affects almost everyone's life. Cars, trucks, airplanes, and other methods of transportation are provided by industry, and if a person doesn't feel like going any place he can stay home and watch television or listen to the football game on the radio. Both radio and television are industrial products."

When I asked Socrates where he learned all of this he told me he had been many places before he came here; some were good and some were bad. He said, "Progress and industry go hand in hand. The bigger a town gets the more industry it attracts; the more industry it has the bigger it gets."

Socrates told me, "Although I haven't lived in Hondo long, I can see many signs of industry. Hondo is growing."

He finished it up by saying, "Hondo is a fine city and I like living here!"

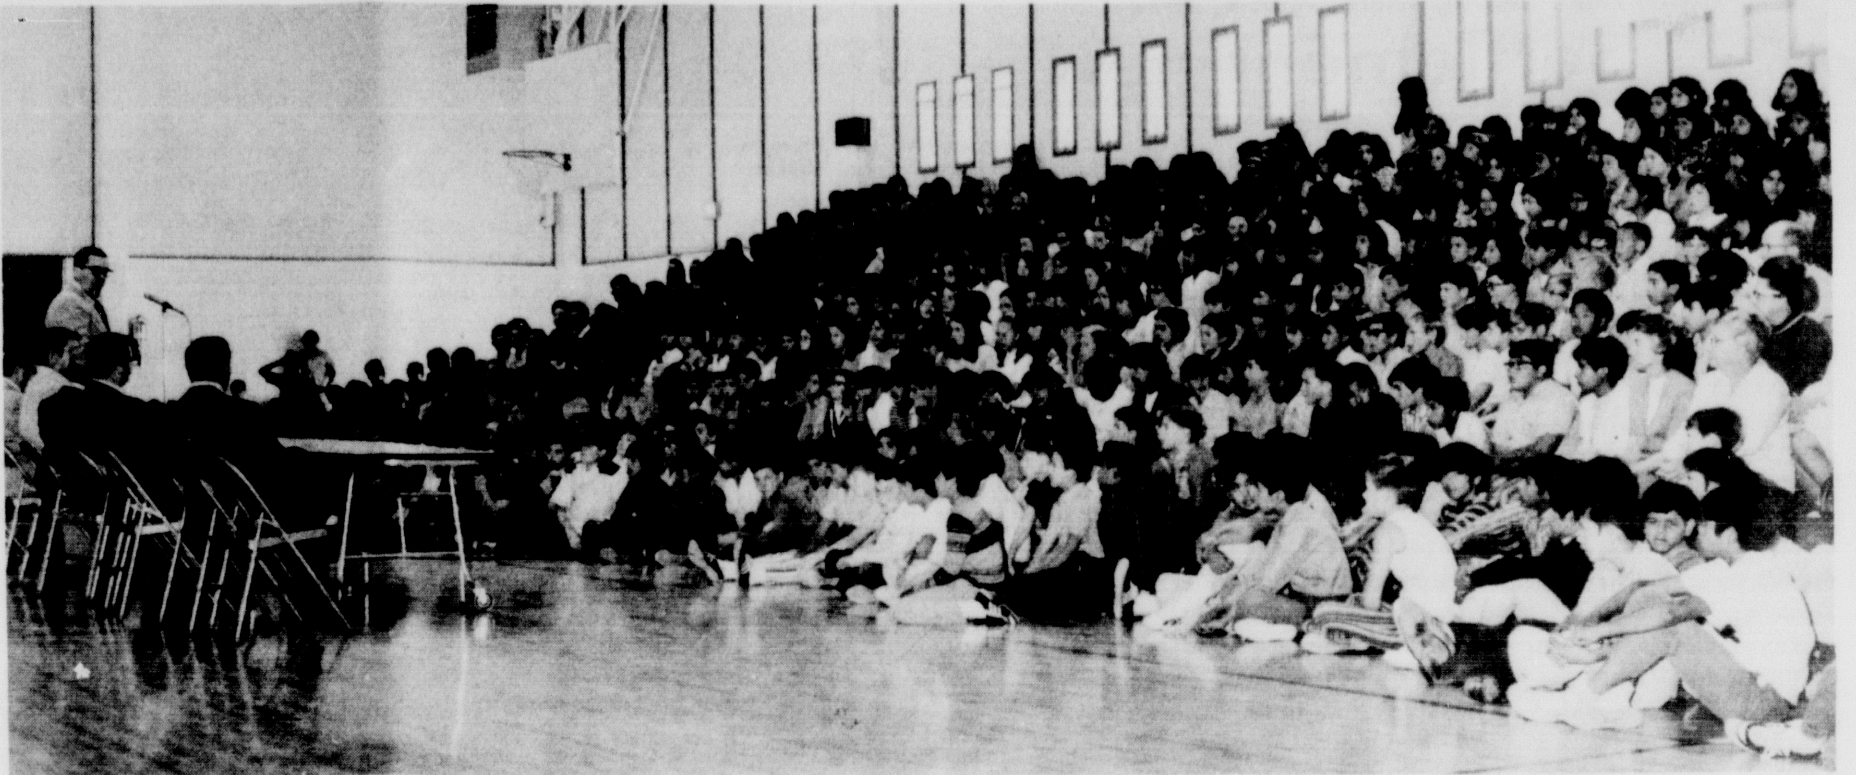

I too think Hondo is a wonderful city, and I am proud to live in Hondo.

GOING TO STATE

...these FFA members will represent Hondo at the State contest on April 21. They are left to right: Gary Saathoff, Gene McAnelly, Glenn Sturm and Bobby Cox.

Beef Cook-Off entries due

Entries to the first annual "Texas Grain-Fed Beef Cook-Off" are beginning to flow steadily into Austin.

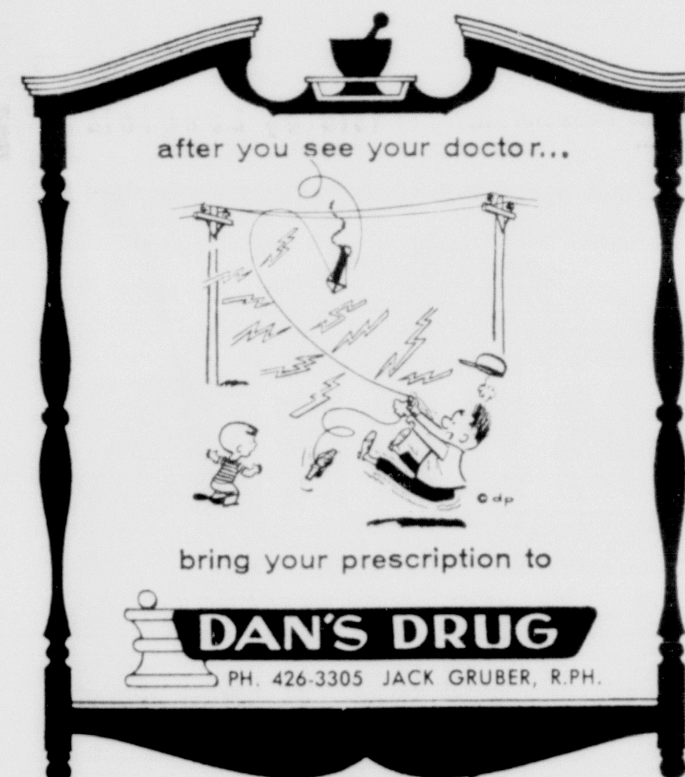

The "Cook-Off", a joint endeavor between leaders in the cattle industry and the Texas Department of Agriculture, is urging all non-professional cooks to submit their favorite beef recipes to vie for a \$500-in beef grand prize and a \$200 beef prize for the three category winners.

The categories consist of (1) Casseroles (2) Gourmet (3) Economy dishes.

Commissioner John C. White reports that twenty four finalists (six from four different areas of the state) will win \$50 and an expense paid trip to Austin to prepare their recipes in the finals to be held in Austin, Saturday, May 13, 1972.

If rules, regulations and entry blanks are not available

at your retail store write to the Texas Department of Agriculture in Austin, Texas 78711.

FFA members win Area

Two teams represented the Hondo FFA chapter in Area VII Land And Range-pasture judging Contest at Fredericksburg on April 4th. These two teams had previously entered district contest at Uvalde on March 14th where the Range-pasture team placed first and the land team placed 5th.

The Range team placed 5th in a grass and plant identification contest at San Marcos on March 25th.

The Land team members were Gordy Bohmfalk, Ted Mendoza, Bill Bendeale and Mitch Pope. This team placed 8th in a field of 18 land teams. The Range-Pasture judging team placed second just 34 points below San Saba

who came in first in Range-Pasture judging.

Range team members were GeneMcAnelly, Bobby Cox, Gary Saathoff and Glenn Sturm. Gene McAnelly was 3rd, scoring 293 points. The top scoring boy was from San Saba with 300 points, the second high scoring individual was from Harper 296 points.

Gary Saathoff of Hondo was 5th high scoring individual with 268 points.

The Range team will compete in State Range-Pasture judging at Stephenville on April 21.

This is the fourth straight year for the Range-Pasture team to qualify for State Range-Pasture Judging.

Industry is very important to Hondo in many ways. It is very important to Hondo's future environment. Also, it is important because it will provide many jobs for the many unemployed people in the Hondo area.

If industry were started here in Hondo it would mean more publicity and possibly put Hondo on the map.

More industry in Hondo would help lower the prices on certain goods in Hondo. These lower prices would be brought about by competition caused by more industry.

Since railroad transportation through Hondo has not been at its peak since the war, the train stops in Hondo will become greater in num-

CLASSIFIED ADS

Newspaper is best ad medium

Experienced businessmen hold differences of opinion concerning the effects of advertising.

One opinion is that no one can be expected to remember the details of advertising and that advertising is effective only when it gradually implants certain attitudes in the unconscious mind of the public.

On the other extreme, an aggressive retailer may argue that advertising is not effective unless the public acts on the detailed offerings of a particular advertisement.

Both of these opinions persist because both are based on truth. Advertising may work in either or both ways. The best of retail advertising should result in immediate action on individual ads, while, over a period of time, creating a favorable overall image of a business.

It is true that very few people remember the details of an advertisement, even

when the ad is studied carefully. Thus, it is important for the retailer who wants specific action on his advertising to choose a medium which is retained and used for reference.

That is why the newspaper is the best medium for retail item advertising. Grocers are well aware of the importance of item listings in the newspaper. Even though newspaper ads are posted in a grocery store, it is a familiar sight to see shoppers walking through the same store with a newspaper ad in hand for ready reference.

Under usual conditions, the community newspaper is the only retail advertising medium which is retained in the home long enough to have any reference value. It is also the medium which is likely to bring the most long-range prestige to local advertisers.

Awards and prize money will be awarded at the annual meeting on May 26 at 7:30 p. m.

Why Hondo needs industry

By Joel Hanneman

Hondo, like many other small cities in Texas, is growing in size and population. The reason for this is new industries coming to the smaller towns. We need more industry for several reasons.

The main reason Hondo needs more industry is for the employment of more people. Many people today are unemployed and need a good job. An industry needs people to operate them, so naturally they would employ more people.

A new, large discount store would employ a great many people who were not able to go to college. This group makes up the most of the unemployed people in a community; therefore we need industries where they can work. We also need work for the older people in Hondo.

One industry in our community is the broom corn industry. This is really only half an industry since it doesn't manufacture the crop into a finished product. Being in a major broom corn producing area, a broom factory seems to be in order for Hondo. It would employ some more people, reduce the shipping cost, and bring more families into Hondo.

Industry would also help Hondo financially. If a person could buy a special item he would have ordinarily bought in a larger city, like San Antonio, in Hondo, he would save on gas for the trip and it would be a lot easier for the person. A large discount store would possibly provide for this.

EAGLES PLAY

The Hondo Eagles will open Hill Country League action Sunday.

Hondo's baseball team will travel to Fredericksburg to take on the Cubs at 3 pm.

Industry would bring more people to Hondo and increase our population. This would help other businesses in Hondo.

These are the main reasons why Hondo needs more industry. Although Hondo continues to grow in various industries, there is still a great need for more.

Questions & Answers

QUESTION: I keep hearing my friends say, "Telephone the social security office". I thought when you had social security business to transact you ALWAYS had to go down to the office to see those people. What does this mean?

ANSWER: The Social Security Administration only recently initiated a service designed to speed help to our beneficiaries and to enable them to transact their social security business more conveniently. This is referred to as TELE-SERVICE. So, it may be to your advantage to telephone your social security office before visiting it, to determine whether you really need to make the trip to the office. You may handle the matter by phone.

Thanks to modern agricultural techniques and machinery, combined with scientific methods of planting and harvesting, United States' crop production per acre has soared by 59 percent since 1950.

Leinweber will head school board

Officers were elected for the Hondo Independent School District at the Monday night meeting.

Elmer Joe Leinweber was re-elected to the office of president; and others returned to office were Glen McWilliams as vice president and Jack Been as secretary.

The Board also adopted a policy changing the immunization requirements. They dropped smallpox from the requirements on recommendation of the State Department of Health.

DeMolay holds installation

The Tri-County Chapter, Order of DeMolay, held installation of new officers Monday evening, April 3, at the Hondo Masonic Lodge. DeMolay members were assisted by Rainbow Girls in the ceremonies.

Present were guests representing Eastern Star, Masonic Lodge, Rainbow Girls and DeMolay of Hondo, Devine and Natalia.

Following the installation, DeMolay mothers served sandwiches, cookies, punch and coffee.

The newly installed officers are: Master Councilor, Lacy Gilliam; Senior Councilor, Oscar Hairell; Junior Councilor, Bob Allen.

Senior Deacon, Michael Parks; Junior Deacon, Tim Hay; Senior Steward, Richard Herring; Junior Steward, Tom Marrs.

Chaplain, Richard Moore; Marshall, Richard Young; Standard Bearer, Mike Tolleson; Scribe, Paul Smith. Mr. Jim Allan was installed as "Chapter Dad".

Mrs. Roy A. Carter has returned from Missouri where she had been visiting relatives for the past three months. She says it is good to return to the sunshine after long weeks of being snowbound.

An important round hut

Sgt. Rodney Rex kneels inside the USAF TVOR(Terminal Visual Omni Range) unit at the Hondo Airbase. Mission of the unit is to provide aircraft navigational aids information in support of the 3510 Flying Training Wing at Randolph AFB. TVOR emits a UHF radio signal radiating in a 360

degree circle in the airspace above Hondo. The signal incorporates electronic principles of modulation to provide courses of arrival and departure for aircraft flying in and out of Hondo MAP and vicinity. (Photo by Burnis Lawrence)

Hondo helps claim most telephones

How would it be to call all the telephones in the world?

"Impossible," said Harold Johnson, manager for Southwestern Bell Telephone Company. "The task of reaching all 272.7 million phones would take more than 250 years, even for an American, who places more calls a year on the average than anyone else on the globe."

He said statistics show that each man, woman and child in America during 1972 averaged about 2.1 conversations per day, or 779 for the year -

more than the combined average of their counterparts in Argentina, Greece, China and Australia.

However, Johnson pointed out that even if this average were increased to 2.1 conversations per minute it would still take more than 250 years to reach all of the world's telephones.

Johnson based his calculations on the latest edition of "The World's Telephones," a booklet published annually by AT & T's Long Lines Department, the Bell System unit for interstate and international

services. He said the telephone census reflects developments to January 1, 1972, because a full year is needed to compile the data.

Hondo played a role in helping Americans set another record -- that of having more telephones in service than any other country.

"The record showed the U.S. ahead with 120.2 million phones, five times as many as second place Japan which reported 26.2 million," Johnson said. "There are 2,866 phones in Hondo which is more than all the telephones in the country of British Honduras," he noted.

Even though the U.S. topped the list in total telephones, its growth rate is less

than half that of a number of countries led by Greece, Yugoslavia, Japan and Korea.

"However, it probably will be a long time before these countries equal telephone concentration in the U.S. which is one phone for every two people," he said.

To make his point, Johnson compared Texas with its more than five million telephones to Sweden which has more than 4.5 million telephones.

With the other four states of Arkansas, Oklahoma, Kansas and Missouri served by Southwestern Bell, the total company phones at the end of 1970 surpassed the number in Canada. Southwestern Bell had 10,488,540 phones compared to Canada's 9,752,537.
